Timothy Guiteras
USC Iovine & Young Academy: BA, Arts, Technology, and Business of Innovation with a Minor in Business/Technology Fusion

What is exciting and interesting, or currently challenging you, in your major field of study?
Growing up, you’re taught to look straight ahead, follow the rules, hit the marks, and you don’t get rewarded for being disruptive... you get sent to the principal’s office.

Spending the past four years (ahhhhh!) at USC’s Iovine & Young Academy has been a transformative experience—both creatively and intellectually. It’s challenged me to question the nature of our society—from the way we dress to the way we design business and government—and empowered me with the tools and confidence to consider changing them... to, quite literally, change the world.

As I constantly remind myself, we are still in the dawn of the digital revolution, and I believe that, when used for good, digital technology can have a profoundly positive impact on the way people learn, live, and interact. Environmental sustainability, financial accessibility, equity in the workplace, toxic masculinity: these are just some of the big problems that I want to tackle as a young entrepreneur; but I recognize that they are not problems I can solve alone. Rather, they’re problems that will require me to listen as much as talk, collaborate as much as contemplate, and rebuild as much as disrupt. As I leave USC this spring, I would like to challenge myself—and my classmates—to dream big and believe in the power of creativity to steer the world in a better direction. The script for tomorrow is yet to be written.

Describe clubs or other on campus activities in which you participate
I've been a member of Sigma Nu fraternity since freshman year. Last year, I was a designer in Lavalab, a student-run entrepreneurship club. I recently finished an amazing special topics class (CE-486) where we designed products and solutions for the refugee crisis in Greece. My class visited the refugee camps in Lesbos, Greece, last semester, where we spent a week testing our products and serving the refugees as best we could.

Describe any work (paid or volunteer) or off campus associations in which you participate.
During freshman year, I interned as a product designer at Raya, a celebrity dating app in Los Angeles. Sophomore year, I worked at Adidas as a creative consultant; my team won Adidas’ international retail design challenge, and we were invited to their headquarters in Germany to share our ideas with their executive team. This past summer, I interned (remotely) for Facebook, where I collaborated on new designs for the Facebook app.

List any recent travels - either for study abroad or other USC related opportunities.
I wasn’t allowed to study abroad in my program, so my friends and I decided to plan our own “abroad” experience. During the summer after freshman year, we spent two months backpacking Europe and visited 20+ cities. While working with Adidas, I visited Munich and Nuremburg in Germany, and during my junior year I visited Lesvos, Greece, for a service trip. In addition to international travels, I’ve spent many weekends road tripping around California with friends, checking off many amazing spots on my bucket list.

List any new information we should know about your current status, your involvement at USC, or your future plans.
This year, I’ve spent a majority of my free time focused on growing my startup, Heirloom, an online memorial space for friends and family to collaboratively share memories about someone who has passed away. Using the internet and all of its potential, my team is redesigning the memorial experience from the ground up to be more permanent, accessible, sustainable, and meaningful. If you’re interested in our mission and want to learn more, or you just want to say hello, please don’t hesitate to reach out! My email is guiteras@usc.edu. Fight on!

**DID YOU KNOW...**

After Mrs. May Harris passed away in 1962, the new Bylaws of Town and Gown limited Presidents to a one time 2-year term. She had served from 1947-1962. The tradition of Lords and Ladies began in 1974. It was an event for couples held after a football game in Chinatown. Traveler was the Guest of Honor. This later was held on a regular meeting day. In 1968 the custom of decorating tables at the Christmas luncheon was begun and still a highlight of the year today. During Mrs. Helen Dedeaux’s term from 1970-72, Bylaws were revised, the Board was enlarged to 46 ladies and extensive remodeling of the foyer was done. Town and Gown luncheons were $2.50! Board meetings were held at members’ homes. Tuition was $3,300 a year and we awarded 8 scholarships at that time.
